change

Ajay Kaul, Managing Trustee

Incessant change is at the very core of nature and is essential to growth. The advent of technology and advanced communication tools marked the beginning of a milestone journey for the impending generations. We as a nation and as a part of the education fraternity have witnessed the adaptation and influence of technology on the young minds for decades. Technology has penetrated deeper into our lives; Our young generations are exposed to the use of these technologies at a very early age. Contrary to the old times, the imprints a child is collating from such influences is creating a substantial decree on his psyche which will define his life course. In such a highly sensitive environment, our role as an educational institute becomes not only important, but very crucial.

The underlying principle of education is pertinent to the overall development of children. Traditional ways of education would be redundant in today's time. The need for a transformational approach is more now than ever.

As a progressive and responsible educational institute, we believe in holistic education; values, principles and ethics are the defining traits in building a positive persona and we need trailblazing methodologies to align these in the course of formal education in the tech-age of today. Adapting to the metamorphosis in education and re-inventing the wheel to devise

and implement effective strategies of teaching has been the instrumental mission we have undertaken as an institute. For over 4 decades, we have been shaping the personas of the leaders of tomorrow and contributing to their life success stories. Our methods are designed with the amalgamation of experiential learning of theories, artistic interventions to tap into the innate abilities, avenues that offer to stimulate logical reasoning and leadership abilities coupled with opportunities to explore their ingenious skills. The success of our endeavors in this pursuit stands strong with the backing of our strong team of qualified and veteran teachers and staff members.

While we are overwhelmed and cherish every moment of our triumphant voyage, we understand that it's a work- in-progress and we must persistently adapt to the evolutionary path of education. Our role as a contributor in this field will always remain significant; however, our success becomes conceivable with the active role of positive parenting in this tech-age. It's a path we must walk together. For, we are not building mere future of a child, we are building the future of our nation and the onus is on us.

With immense gratitude, we dedicate our success to every member of this institution and invite every parent to join the journey of this transformational feat.

*Success has no short cuts
Positive Attitude generates
Positive Results*

The twin pillars of growth and success are indeed deeply rooted in the formidable edifice of education. Reflecting on India's rich intellectual tradition, one perceives the profound respect accorded to the pursuit of knowledge dating back to our ancient times - a testament to the emphasis on mental cultivation that we proudly carry forward today.

In keeping with this noble ethos, revered educationalist and renowned social worker, Hon. Shri Ajay Kaul Sir, has envisioned and established the Children Welfare Centre's (CWC) College of Law. Beyond these traditional programs, our institution also offers comprehensive certificate courses. These innovative certificate courses are designed to provide students with a nuanced understanding of upcoming legal fields, court decorum, drafting skills, logical applications in law, interpersonal abilities, English proficiency, administrative and soft skills, all while inculcating a strong sense of ethics. By equipping our scholars with these skills, we aim to prepare them for a successful legal practice, whether at the High Court, Supreme Court, or other judicial entities. Judicial and quasi-Judicial and Administrative forums. We inspire within them a deep commitment to dispense justice and shaping the legal landscape of India. To aid this

quest for knowledge, our college is outfitted with state-of-the-art infrastructure and a well-stocked library, thus promoting an environment that champions the pursuit of excellence.

The realization of this ambitious vision is brought to life by the concerted efforts of our esteemed Assistant Professors and the invaluable non-teaching staff.
